Drinking Water Program

Subject: My Place Restaurant and Lounge PWS # 41-94167 operating in violation of Public Water System Rules and Food Sanitation Rules

This letter is a follow-up to previous communications regarding plan review and sampling. Your public water system has unresolved violations that must be resolved by December 31st 2014 or the water system will be referred for formal enforcement. Upon completion of the requirements below all violations will be returned to compliance.

The My Place Restaurant and Lounge water system has the following requirements that must be completed by December 31st 2014:

- 1) Collect a routine coliform sample from the distribution for testing and report it to the State.
- 2) Collect an annual nitrate sample for testing and report it to the State.
- 3) Initiate plan review with the state Drinking Water Program; you can do this by e-mailing dws.planreview@state.or.us, please tell them you are an existing water system that has been closed for longer than a year. Your system previously is noted as having one well (Lane19531) with an ion exchange system for treatment of inorganics. Please tell plan review if you have made any changes to this system, and if you are using the ion exchange system. They will follow up with you on any other information they need.

My Place Restaurant and Lounge
Oregon PWS #41-94167

November 19, 2014

Failure to comply with the above compliance schedule may result in formal enforcement action which could include the assessment of civil penalties.

If you have any questions or concerns, please call me at 541-682-3753 or e-mail at sarah.puls@co.lane.or.us.

Thank you for your cooperation.

Sincerely,

Sarah Puls
